# agroparts Mobile – use always and everywhere.

Use the agroparts Mobile app to simply save the agroparts spare parts catalogs for individual machines or your whole fleet on your mobile phone or tablet.

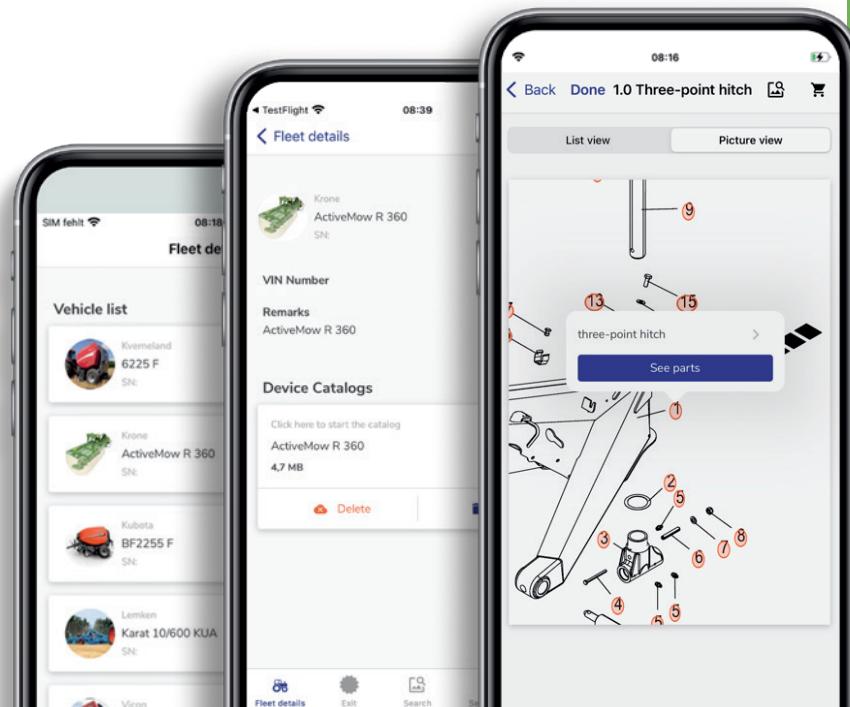

This means you have the complete spare-parts documentation of your machine(s) with you at all times, whether at home, in the workshop or in the field. Simply open the required parts catalog and search offline.

And the best of it all: the genuine spare-parts order can be sent directly from the app to the webshop of the participating authorised dealers as soon as an internet connection is available again.

Now also possible: photograph the spare part online, select the machine and conveniently identify the part via image recognition.

Available for iOS and Android!

You are ready to go in just a few steps with **agroparts Mobile**:

- ✓ Download the app.
- ✓ Select your subscription at [www.agroparts.com](http://www.agroparts.com).

## Working with agroparts Mobile:

- ✓ Create fleet.
- ✓ Select the customer's machine by entering the serial number.
- ✓ Save the required catalogs on the mobile device before you start using it.
- ✓ Research offline when you are on-site and add genuine spare-parts to your shopping basket.
- ✓ As soon as an Internet connection is available, send the shopping basket directly to your authorised dealer's agroparts DealerShop or by e-mail.
- ✓ Prerequisite for using agroparts Mobile as a service technician: You have dealer rights for at least one agroparts brand.
