# agroparts – one-stop-service. For everyone.

Download  
agroparts Mobile  
right now!

Available for iOS and Android!  
[Download on the App Store](#) [GET IT ON Google Play](#)

## Manufacturers

agroparts is the world's largest multi-brand platform, putting agricultural machinery manufacturers in **the best place to serve all levels of their genuine spare-parts business**.

On agroparts, manufacturers benefit from an **individual brand presence** in their own manufacturer section, which offers numerous administrative functions.

At the same time, agroparts offers a **transparent and efficient cost structure** for manufacturers through strong, cross-brand standards.

The state-of-the-art spare-parts catalogs also allow **efficient data maintenance and publication**.

## Authorised dealers

On agroparts, authorised dealers benefit from a standardised design for all brands, making **navigation, genuine spare-parts research and ordering** for all brands as simple as possible – and all with a single login!

The agroparts DealerShop also allows authorised dealers to offer their customers the **full range of genuine spare-parts** from participating agroparts brands online **with just one click**.

And the best of it all: even genuine spare-parts from brands not yet participating can also be included. The agroparts DealerShop enables authorised dealers to cover **their entire brand portfolio in a single online shop!**

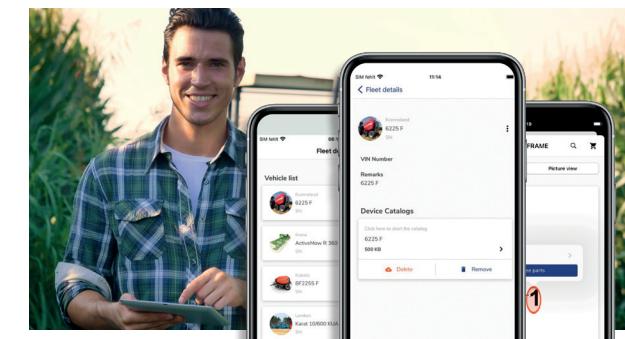

### agroparts DealerShop

#### Always a benchmark – the agroparts OnlineCatalog

The agroparts online catalogs are available to manufacturers, authorised dealers and end customers via agroparts or the agroparts DealerShop and ensures the **highest technical data quality** in the market. Targeted search functions such as part number, serial number or text search makes **immediate ordering of genuine spare-parts simple**.

## Farmers, Contractors, Independent workshops

End customers can order the genuine spare-parts they need directly from the authorised dealer using the agroparts DealerShop, 24/7! **Just as easy as online shopping!**

agroparts spare-parts catalogs of participating brands for individual machines or an entire fleet can be downloaded to an iOS or Android device with the new agroparts Mobile app.

This means you have the complete **spare-parts documentation for your machine with you at all times**, whether at home, in the workshop or in the field – **offline as well**. And the best of it all: the genuine spare-parts order at participating authorised dealers can be originated **directly from the app!**

Download agroparts Mobile to your tablet or smartphone today and **ask your authorised dealer for the agroparts DealerShop**.

**New: Visual Image Recognition** Find spare parts quickly and easily with the new agroparts spare parts recognition. Artificial intelligence supports us in making your work processes more efficient and thus reducing downtimes.

**agroparts Mobile – perfect for end customers and service technicians**

# agroparts – one-stop-service. For everyone.

- ✓ The world's largest multi-brand platform for genuine spare-parts – for all after-market levels: from the manufacturer and authorised dealer to the end customer.
- ✓ More than 25 years in the market – more than 6,000 authorised dealers – more than 150,000 registered users
- ✓ Manufacturers provide their spare-parts data in the agroparts OnlineCatalog. This ensures the best and most up to date data quality in the market.
- ✓ Authorised dealers use the intelligent search functions to research and order genuine spare-parts direct from the manufacturer.
- ✓ End customers research online in the tried and tested agroparts OnlineCatalog or offline in the new agroparts Mobile app. It can also be used as an ideal field service tool by the authorised dealer's service staff.
- ✓ End customers order genuine spare-parts directly from the authorised dealer via the new agroparts DealerShop.
